

EDITOR'S NOTES

EDITORIAL

Dear Authors and Readers,

Beginning from January 1st, 2013, both the home page of *Chemical and Process Engineering* quarterly www.chpe.pl and the address editors@chpe.pl are inactive. Manuscripts are currently to be submitted to the email address of the Editor-in-Chief, Prof. Andrzej K. Biń: A.Bin@ichip.pw.edu.pl. General guidelines for text preparation are collected in Instructions for Authors along with the manuscript template, which are available on the quarterly's website www.versitaopen.com/cpe in *Submit* section.

Our quarterly is still available in a full text form on the Internet using the platform of Versita www.versita.com/cpe/ (in *Read* section) and also on the website of De Gruyter publishing house www.degruyter.com/view/j/cpe.

As before, each of the published articles will be assigned its individual DOI (Digital Object Identifier) number. The Versita company will place the numbers in the CrossRef organisation to enable creation of "live links" from other papers, which will quote that article. Those modifications should result in a progress of citations of our papers, and consequently, in an increase in the impact factor, IF.

Starting from no. 3/2012 of *Chemical and Process Engineering*, a principle of publishing articles against payment is introduced, assuming non-profit making editorial office. According to the principle, either authors or institutions employing them, will have to cover the expenses amounting to 500 PLN or 100 € for each publishing sheet. In case of colored graphs or photos an additional payment of 300 PLN (60 €) per 1 page containing colored figures on both sides, or 160 PLN (32 €) per page containing colored figures on one side will be required. The above amount will be used to supplement the limited financial means received from the Polish Academy of Sciences for the editorial and publishing work; and in particular to increase the capacity of the next CPE volumes and to proofread the linguistic correctness of the articles. The method of payment will be indicated in an invoice sent to the authors or institutions after effective publication of their manuscript. In justifiable cases presented in writing, the editorial staff may decide to relieve authors from basic payment, either partially or fully.

All correspondence should be sent either to A.Bin@ichip.pw.edu.pl

or to

Prof. Andrzej K. Biń

Faculty of Chemical and Process Engineering

Warsaw University of Technology

ul. Waryńskiego 1,

00-645 Warszawa
